#Why #What #How

Rayfin CLI

1. Human-readable statements
2. Commands for Fabric App creation/deployment
3. Calls functionality inside SDK

#Why #What #How

Development using Rayfin

#Why #What #How

Development using Rayfin

i Install

Download & setup

VS Code + GitHub Copilot

NodeJS + NPM

Rayfin

```
npm i
   @microsoft/rayfin-cli
```

ii Initiate

Create project scaffolding

```
npm create
   @microsoft/rayfin@latest
   PakTrax
```

New

```
npx rayfin init
   C:\GPC\PakTrax
```

Existing

iii Implement

Add customization logic

DEV: Development Work

TEST: `npm run dev`

DEPLOY: `npx rayfin up`

Recap

1. Rayfin Steps

2. Create and publish Lifecycle

3. CLI Commands
